Forward Looking Statements

Certain statements in this website are forward-looking statements or information (collectively "forward-looking statements"). Zeox is hereby providing cautionary statements identifying important factors that could cause Zeox's actual results to differ materially from those projected in these forward-looking statements. Any statements that express, or involve discussions as to, expectations, beliefs, plans, objectives, assumptions or future events or performance (often, but not always, through the use of words or phrases such as "will likely result," "are expected to," "will continue," "is anticipated," "estimated," "intend," "plan," "projection," "could," "vision," "goals," "objective" and "outlook") are not historical facts and may be forward-looking and may involve estimates, assumptions and uncertainties which could cause actual results or outcomes to

differ materially from those expressed in the forward-looking statements. In making these forward looking statements, we have assumed that the current market for our products will continue and grow and that the risks listed below will not adversely impact us.

By their nature, forward-looking statements involve numerous assumptions, inherent risks and uncertainties, both general and specific, which contribute to the possibility that the predicted outcomes will not occur or will be delayed. The risks, uncertainties and other factors, many of which are beyond our control, that could influence actual results include, but are not limited to:

- fluctuations in zeolite prices and prices of other products we produce;
- demand for our products and services and the cost of required inputs;
- our ability to replace our reserves;
- competitive actions of other companies, including increased competition from alternatives to our product solutions and intended uses;
- the occurrence of unexpected events such as labor disputes, transportation problems, equipment failures and other similar events affecting us or other parties whose operations or assets directly or indirectly affect us and that may or may not be financially recoverable;
- actions by governmental authorities, including changes in environmental and other regulations that may impose restrictions in areas where we operate;
- our potential inability to raise sufficient funds to carry out our plans; -
- we are unable to successfully defend our patents or other intellectual property or we infringe on the intellectual property of others; and
- non-performance by contracted partners of contracts we depend upon.

Further, any forward-looking statement speaks only as of the date on which such statement is made, and, except as required by applicable law, Zeox undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of unanticipated events. New factors emerge from time to time, and it is not possible for management to predict all of such factors and to assess in advance the impact of each such factor on Zeox's business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statement. Readers should also refer to our risk factors set out in public disclosure filed on SEDAR.

Zeox disclaims liability for any computer viruses or other destructive programs that may be inadvertently downloaded from this website.
